CAREER OBJECTIVE

Detail-Oriented Frontend Developer skilled in HTML, CSS, JavaScript, and React fundamentals. Focused on building responsive web applications with API integration and dynamic UI components. Passionate about creating user-friendly interfaces and continuously improving technical expertise.

WORK EXPERIENCE

Contract Supervisor / HR Assistant Jan 2024 - Present
GAIL India Ltd, Rajahmundry

- Coordinated cross-functional teams to ensure smooth workflow and timely task completion
- Used Microsoft Excel, SAP and digital reporting tools to manage operational data and improve reporting accuracy.
- Managed documentation and maintained accurate operational data records
- Improved operational efficiency through structured reporting and performance monitoring
- Demonstrated strong problem-solving, communication, and multitasking skills under strict deadline.

EDUCATION

Diploma, Mechanical Engineering 2016 - 2021
B.a.ramaiah Polytechnic College

Secondary (X), Ssc 2016
Govt Boys High School

TRAININGS / CERTIFICATIONS

Full Stack Development
Nov 2025 - May 2026

Internshala, Virtual

- Fundamentals of Full Stack Development
- Web Page Designing (HTML and CSS)
- Git and GitHub: Version Control
- Websites Development (JavaScript)
- Data Structures and Algorithms (DSA) in JavaScript
- Web Applications Building (React)
- Node.js, Express.js and MongoDB for Web Development

PORTFOLIO

GitHub link ↗

PROJECTS

Developed APIs with Node.js and Express.js for Shoppyglobe ↗
May 2026

- Developed and enhanced the backend system for ShoppyGlobe using Node.js, Express.js, and MongoDB, ensuring efficient data management and seamless frontend integration.
- Designed RESTful APIs for product listings, user management, and shopping cart functionality, while implementing JWT-based authentication for secure user access.

Developed YouTube-Inspired Platform ↗
May 2026

- Built a responsive video streaming platform similar to YouTube using the MERN stack, featuring video uploads, user authentication, and seamless user experience.
- Implemented JWT-based secure authentication and developed interactive features such as likes, comments, shares, and personalized video recommendations.

ShoppyGlobe: An E-commerce Application ↗
Mar 2026 - Apr 2026

- Developed ShoppyGlobe, a responsive e-commerce platform using React and React Router, enabling seamless product browsing, cart management, and smooth user navigation.
- Implemented Redux for efficient state management, integrated real-time product APIs, and optimized the application for responsive performance across devices.

Mastering DSA: Arrays, Searching & Sorting
Feb 2026

- Developed a comprehensive understanding of foundational Data Structures and Algorithms concepts.
- Worked on designing and optimizing search and sort algorithms with applications in various data structures, enhancing efficiency and problem-solving.

Personal Portfolio Website ↗
Nov 2025

- Designed a personal portfolio website using HTML and CSS to demonstrate my professional skills and accomplishments.
- Implemented a responsive layout and effective UI components to enhance user engagement and ensure compatibility across various devices.

Advanced Problem-Solving in Recursion, Linked Lists, Stacks, Queues, and Trees ↗
Feb 2026 - Mar 2026

- Achieved advanced proficiency in JavaScript DSA by solving recursion, linked lists, stacks, queues, and trees challenges.
- Focused on the implementation and refinement of data structures for scalable and effective solutions.

Weather Forecast Application ↗
Jan 2026

- Developed a real-time weather forecast application with a responsive and user-friendly interface, providing location-based weather updates across multiple devices.
- Integrated asynchronous API calls to fetch live weather data and dynamically update current and future weather conditions using JavaScript and DOM manipulation.

College Fest Registration System | JNTUK University ↗
Mar 2023

- Developed a responsive College Fest Registration System using HTML, CSS, and JavaScript with cross-device compatibility.
- Implemented registration forms with client-side validation and dynamic user interactions to enhance the registration experience.

SKILLS

- JavaScript
- Node.js
- Express.js
- Problem Solving
- MySQL
- React
- REST API
- HTML 5
- Teamwork
- CSS3
- MongoDB
- Tailwind CSS
- Leadership
